

CB200 PREMIUM WET CORE BITS CONCRETE

PROFESSIONAL CORE BITS

WET CORE BITS HARD MATERIAL

The **CB200 Wet Core Bit** is a **premium-performance diamond core bit** engineered for fast, efficient wet drilling in hard concrete, reinforced concrete, granite, brick, and concrete block. Featuring 8 mm (.315") laser-welded diamond segments, the CB200 delivers excellent cutting speed, smooth coring, and consistent diamond exposure through demanding materials. Its professional-grade construction an excellent choice for contractors requiring reliable results in demanding coring applications.

APPLICATION

Hard concrete, Granite, Brick, Reinforced concrete, Concrete block

EQUIPMENT

Core drill

TECHNICAL SPECIFICATIONS

SEGMENT HEIGHT 8 mm (.315")

CONFIGURATION Segmented

ASSEMBLY Laser welded

PERFORMANCE LEVEL Premium

DRILL CONNECTION 5/8"-11, 1-1/4"-7

COOLANT Wet
