

CB300 PREMIUM WET CORE BITS CONCRETE

PROFESSIONAL CORE BITS

WET CORE BITS MEDIUM HARD MATERIAL

The **CB300 Premium Wet Core Bit** is engineered for professional drilling in hard concrete, cured concrete, reinforced concrete, concrete block, and brick. Featuring a slightly harder bond than the CB200, the **CB300** is designed to provide extended segment life while maintaining smooth, consistent drilling performance. This makes it an excellent choice for contractors who value maximum tool life during repetitive drilling applications in demanding construction environments.

APPLICATION

Hard concrete, Cured concrete, Reinforced concrete, Concrete block, Brick

EQUIPMENT

Core drill

TECHNICAL SPECIFICATIONS

SEGMENT HEIGHT	8 mm (.315")	PERFORMANCE LEVEL	Premium
CONFIGURATION	Segmented	DRILL CONNECTION	5/8"-11, 1-1/4"-7
ASSEMBLY	Laser welded	COOLANT	Wet
