

CB400 PREMIUM WET CORE BITS MASONRY

PROFESSIONAL CORE BITS

WET CORE BITS GENERAL PURPOSE

The **CB400 Premium Wet Core Bit** is designed for fast, efficient wet drilling in **masonry, brick, and concrete block**. Featuring a medium bond, 8 mm premium diamond segments, and a durable 14-inch barrel, the **CB400** delivers smooth drilling performance, clean holes, and dependable core bit life in everyday masonry applications. With a standard 5/8"-11 thread, it is an excellent choice for plumbing, electrical, HVAC, and general construction professionals requiring reliable performance across a wide range of masonry materials.

APPLICATION

Masonry, Brick, Concrete block
