

CB600 PREMIUM DRY CORE BITS

PROFESSIONAL CORE BITS

DRY CORE BITS GENERAL PURPOSE

The **CB600 Premium dry Core Bit** is designed for fast, efficient wet drilling in **masonry, brick, and concrete block**. Featuring a medium bond, 7 mm premium diamond segments, and a durable 10-inch barrel, the CB600 delivers smooth drilling performance, clean holes, and dependable core bit life in everyday masonry applications. With a standard **5/8"-11 thread**, it is an excellent choice for plumbing, electrical, HVAC, and general construction professionals requiring reliable performance across a wide range of masonry materials.

APPLICATION

Masonry, Brick, Concrete block

EQUIPMENT

Handheld core drill, Core drill
