

## CB700 PREMIUM DRY CORE BITS

### PROFESSIONAL CORE BITS

### CONTINUOUS RIM GENERAL PURPOSE

The **CB700 Premium Continuous Rim Dry Core Bit** is engineered for smooth, accurate dry drilling in **concrete, concrete block, and brick**. Designed with a premium continuous diamond rim, the CB700 delivers clean, chip-free holes while providing excellent drilling speed and extended service life in masonry materials. The **10 mm with flats connection** provides secure engagement, while the included pilot drill on applicable sizes improves accuracy and reduces walking during start-up.

#### APPLICATION

Concrete, Concrete block, Brick

#### EQUIPMENT

Handheld drill

### TECHNICAL SPECIFICATIONS

|                |                |                   |         |
|----------------|----------------|-------------------|---------|
| SEGMENT HEIGHT | 5.5 mm (.216") | PERFORMANCE LEVEL | Premium |
| CONFIGURATION  | Continuous rim | DRILL CONNECTION  | 10 mm   |
| ASSEMBLY       | Brazed         | COOLANT           | Dry     |

### AVAILABLE SIZES

| DIAMETER | SEGMENT WIDTHS | PILOT DRILL          | DRILL CONNECTION |
|----------|----------------|----------------------|------------------|
| 1/4"     | .080"          | No pilot drill       | 10 mm            |
| 2-1/4"   | .080"          | No pilot drill       | 10 mm            |
| 2-1/2"   | .080"          | Pilot drill included | 10 mm            |
| 2-3/4"   | .080"          | Pilot drill included | 10 mm            |
| 3"       | .080"          | Pilot drill included | 10 mm            |
| 3-1/2"   | .080"          | Pilot drill included | 10 mm            |
| 4"       | .080"          | Pilot drill included | 10 mm            |
