

DW200 ECONOMY DIAMOND WIRE

CONSTRUCTION SERIES DIAMOND WIRE

CONCRETE DIAMOND WIRE

The **DW200 Professional Diamond Wire** is designed for economical, reliable cutting of concrete, cured concrete, and light reinforced concrete. **Manufactured with 40 sintered 10.5 mm diamond beads per meter on a durable black rubber carrier**, the DW200 delivers smooth cutting performance and dependable bead retention for professional concrete cutting applications. Designed for wet cutting only, it offers an excellent balance of performance, durability, and value for general demolition and construction work.

APPLICATION

Concrete, Cured Concrete, Light Reinforced Concrete

EQUIPMENT

Wire saw
