

EE100 ZENESIS™ EARLY ENTRY BLADES

PROFESSIONAL SERIES BLADES

ZENESIS™ EARLY ENTRY BLADES

The **EE100 Series** is a professional-grade early entry diamond blade engineered for cutting **very hard green concrete within 1–3 hours after finishing**. Designed for low-horsepower early entry saws, the EE100 delivers fast, clean cuts while minimizing edge chipping and surface spalling. Its optimized bond and precision diamond matrix provide consistent performance, excellent blade life, and smooth tracking in freshly poured concrete. Using **ZENESIS™ Patterned Diamond Technology**.

APPLICATION

Green Concrete
Very Hard Aggregate, Hard Chert, Hard Flint Rock,
Large River Rock
RED

EQUIPMENT

Early entry floor saw
