

EE300 ZENESIS™ EARLY ENTRY BLADES

PROFESSIONAL SERIES BLADES

ZENESIS™ EARLY ENTRY BLADES

The **EE300 Series** is a professional-grade early entry diamond blade engineered for cutting green concrete containing medium hard aggregates. Designed for low-horsepower early entry saws, the EE300 provides an excellent balance of cutting speed, blade life, and clean joint quality. Its precision diamond matrix and optimized bond deliver smooth, accurate control joints while minimizing edge chipping during the critical early curing period. Using **ZENESIS™ Patterned Diamond Technology**.

APPLICATION

Green Concrete
Medium Hard Aggregate, Granite, Slate, Traprock,
Basalt, Quartzite
BLUE

EQUIPMENT

Early entry floor saw

TECHNICAL SPECIFICATIONS

SEGMENT HEIGHT	10 mm (.394")	PERFORMANCE LEVEL	ZENESIS™
CONFIGURATION	Segmented	ARBOR	U/A Universal Arbor / 1" - DP
ASSEMBLY	Laser welded	COOLANT	Dry / Wet

AVAILABLE SIZES

DIAMETER	SEGMENT WIDTHS	Arbor
6"	.095"	U/A 1" - DP
6.5"	.095"	U/A 1" - DP
8"	.095"	7/8" - 5/8"- U/A 1" - DP, 7/8"
10"	.095", .250"	7/8" - 5/8"- U/A 1" - DP, 7/8"
12"	.125", .187", .250"	U/A 1" - DP
13-3/8"	.125", .187", .250"	U/A 1" - DP
14"	.125", .250"	U/A 1" - DP

- Skid Plate Included

Compatible with most early entry saws, including: Soff-Cut® style saws and other low-horsepower early entry concrete saws.
