

EE400 ZENESIS™ EARLY ENTRY BLADES

PROFESSIONAL SERIES BLADES

ZENESIS™ EARLY ENTRY BLADES

The **EE400 Series** is a professional-grade early entry diamond blade engineered for cutting **green concrete** with **medium aggregate**. Designed for low-horsepower early entry saws, the EE400 provides clean, accurate control joints while delivering dependable cutting performance in materials containing granite, river rock, traprock, and similar aggregates. Its precision-engineered bond and patterned segment design promote consistent diamond exposure, smooth tracking, and long blade life. Using **ZENESIS™ Patterned Diamond Technology**.

APPLICATION

Green Concrete
Medium Aggregate, Medium Hard River Rock, Traprock,
Decomposed Granite, Medium Crushed Gravel
GREEN

EQUIPMENT

Early entry floor saw

TECHNICAL SPECIFICATIONS
