

GH101 PREMIUM GRINDING HEAD

CONSTRUCTION SERIES SURFACE PREPARATION

GRINDING HEAD 20 SEGMENT

The **GH102 20 Segment Grinding Head** is designed for high-production surface preparation using professional floor grinding machines. Featuring ten premium diamond segments and available in **Medium** or **Hard** bond options, the GH102 delivers consistent grinding performance, long service life, and efficient material removal on concrete, masonry, asphalt, and other abrasive surfaces. Built for contractors and rental fleets, the GH100 provides dependable performance for floor preparation, coating removal, and concrete surface restoration in both wet and dry applications.
