

GP102 STANDARD BLADES

CONSTRUCTION SERIES BLADE

GENERAL PURPOSE TURBO BLADES

The **GP102 Series** is a standard-performance general purpose turbo blade engineered for fast, reliable cutting of concrete, roofing tile, stone, block, brick, and other common masonry materials. Its precision turbo rim provides smooth cutting action, efficient debris removal, and dependable blade life for everyday professional applications. Designed for use with small angle grinders, large angle grinders, cordless grinders, circular saws, masonry saws, and tile saws, the **GP102** delivers the versatility and consistent performance contractors rely on.
