

RS200 ZENESIS® RING SAW BLADES

CONSTRUCTION SERIES BLADES

ZENESIS™ RING SAW BLADES

The **RS200 Zenesis® Ring Saw Blade** is engineered for professional contractors requiring maximum cutting performance in concrete, demolition, and masonry applications. **Featuring Zenesis® patterned diamond technology**, the RS200 delivers faster cutting, longer blade life, and superior diamond exposure for exceptional performance in demanding wet-cutting environments. Designed specifically for professional ring saws, it provides outstanding cutting efficiency, excellent control, and reliable performance on every job, up to a 10 in cutting depth.

APPLICATION

Bond 10 - Clay Roof Tile, Cured Concrete, Hard Concrete, Masonry
Bond 30 - Clay Roof Tile, Cured Concrete, Masonry

EQUIPMENT

Ring saw

TECHNICAL SPECIFICATIONS

SEGMENT HEIGHT	10 mm (.394")	PERFORMANCE LEVEL	Zenesis®
CONFIGURATION	U-Gullet segmented turbo	ARBOR	Ring
ASSEMBLY	Laser welded	COOLANT	Dry / Wet

AVAILABLE SIZES

DIAMETER	AVAILABLE SEGMENT WIDTHS	Arbor
14"	.165"	Ring Saw

Fits Husqvarna®, Diamond Products™, Hycon, AGP®, Tyrolit
