

ST500 STANDARD ADAPTER

CONSTRUCTION SERIES BLADE

FLUSH CUT ADAPTER

The **ST500 Flush Cut Adapter** converts compatible small-diameter diamond blades into a flush-cutting solution, allowing the blade to cut closer to walls, corners, cabinets, and other obstructions. Its low-profile design increases cutting versatility while maintaining a secure, precision fit. Manufactured from high-strength steel and supplied with four mounting screws, the ST500 provides fast blade changes and dependable performance for professional stone fabrication and concrete cutting applications.

APPLICATION

Compatible 4-hole flush-mount diamond blades

EQUIPMENT

Angle grinder
