

TP200 PREMIUM BLADES

CONSTRUCTION SERIES BLADE

TUCK POINT BLADES

The **TP200 Premium Tuck Point Blade** is designed for professional contractors requiring faster mortar joint removal, improved cooling, and extended blade life. Its premium laser welded diamond segments and ventilated steel core reduce heat buildup during continuous cutting while delivering smooth, controlled performance in brick, block, concrete, and masonry restoration. Engineered for demanding tuck pointing applications, the TP200 provides exceptional durability and consistent cutting on every job.

APPLICATION

Mortar, Masonry, Concrete

EQUIPMENT

Angle grinder

TECHNICAL SPECIFICATIONS

SEGMENT HEIGHT	10 mm (.394")	PERFORMANCE LEVEL	Premium
CONFIGURATION	Segment	ARBOR	7/8"-5/8"-B
ASSEMBLY	Laser welded	COOLANT	Dry / Wet
